To whom it may concern:

I've been in the trucking business for fifteen years, during which time I've seen the cost of diesel fuel continually accelerate. When Duane showed me the Magnetic Fluid Conditioners and told me they could increase the mileage on my fleet of trucks, needless to say, he got my attention.

I've had two sets of the GMX 400 units on one of my trucks for approximately sixty days and my mileage has increased 18%.

I am convinced and satisfied with this product and it's performance and feel I can highly recommend it.

Sincerely,
